TRACK C: CULTURE & ETIQUETTE

This cultural induction course brings you to Greece, India, Spain & France this holiday! Learn to cook, bake and craft classic items from the respective countries. Additionally, develop effective communication skills with our highly sought-after etiquette course!

CULTURE

SPAIN, INDIA, GREECE & FRANCE

As the world transitions into a global village, many countries enjoy a multicultural environment. This June, travel to Greece, India, Spain and France with Camp @ splash! Through cooking, baking and crafting classic items from each country, we expose our campers to different cultures & encourage them to embrace, respect, value & appreciate people that are different from them.

Since many problems arise from misunderstandings and intolerance, facilitating learning about other customs and cultures have become one of our core goals.

This plays a major role in living in an all-round community and making our campers versatile human beings. By providing cultural learning opportunities for campers, our course stimulates their mind & helps them think in diverse ways.

ETIQUETTE

The reason for manners and courtesy is not just to be nice but to give individuals a practical structure to deal with each other.

Our etiquette course is centred around helping kids function in an interpersonal world. It equips campers with the life skills & confidence to deal with different situations in life. By arming our campers with a social toolkit, they have a range of phrases and behaviors at their disposal, ready to use whatever social situation they find themselves in.

Our instructors also aim to enhance our camper's individual image & eliminate discourteous behaviour by promoting kindness, consideration, and humility. Not only do these skills make family life and social interactions more pleasant, they also set our campers up for a lifetime of success.
